

USTRANSCOM ACQUISITION PROCUREMENT FORECAST

WINTER 2013

Updated February 8, 2013

The United States Transportation Command (USTRANSCOM) has potential contract requirements for large and small businesses and our Acquisition Procurement Forecast is the means for industry to initially identify these opportunities. The USTRANSCOM Procurement Forecast provides relevant acquisition information to assist your business in posturing to meet our needs.

This USTRANSCOM Procurement Forecast includes projections of anticipated Acquisition Directorate (TCAQ) procurements over \$150,000. The forecast is for informational and planning purposes only. It does not constitute a specific offer or commitment by USTRANSCOM to fund, in whole or in part, the opportunities referenced herein. This listing may not be all inclusive of active requirements and is subject to change.

SMALL BUSINESS Notice: To assist with market research and acquisition planning, all small businesses interested in a particular requirement identified within are requested to send an email to smallbusiness@ustranscom.mil and the buyer expressing your desire to be added to an interested party list for Request for Information (RFI) and solicitation postings. In the email include your company name, POC, SB categories, project title, and all multiple award contracts you can participate (GSA schedule #s, Alliant SB, MOBIS, LogWorld, 8(a) STARS, VETS, DISA Encore, Army ITES, NetCents, etc.).

The listing is sorted by NAICS in order of projected RFP release date. To skip to specific project details of an individual contract/program, select the Contract /Program name hyper-link from within the table.

8 and 14 Passenger Air Transportation Services at Patuxent River, MD

Contracting Agency: United States Transportation Command (USTRANSCOM)

NAICS Code (s): 481211

Procurement Type: Services

Description: 8 and 14 passenger air transportation services with baggage and small parcels or any combination thereof from NAS Patuxent River, MD to and from military and civilian airfields east of the Mississippi River, but primarily within a 400-mile radius of Patuxent River, MD. The 8 passenger requirement requires the contractor to have sufficient capability to provide air taxi service to a minimum of three different destinations simultaneously. The aircraft must be capable of transporting 1,600 lbs. The 14 passenger requirement requires only one aircraft, capable of transporting up to 2,800 lbs. Aircraft for both requirements must be capable of landing and taking off on a runway length of 4,000 foot, carrying the payload stated.

DOD Approved Air Carrier: Yes

DOD VISA Participant: No

Projected Value Range: \$5,000,000 to \$25,000,000

Anticipated RFP Release Date: 4/9/2013

Integrated Booking System Development

Contracting Agency: United States Transportation Command (USTRANSCOM)

NAICS Code (s): 541511

Procurement Type: Services

Description: The Integrated Booking System (IBS) is the lead execution system of the Defense Transportation System (DTS) for the global shipment of ocean cargo in support of all wars, major contingencies, and humanitarian relief operations where Government personnel are deployed. As such, the IBS is available to users world-wide, 24 hours a day, and seven (7) days a week. The IBS system consists of the following modules: Carrier Analysis and Rate Evaluation II (CARE II), Requirements Forecasting and Rate Evaluation (RF-RAM), Department of Defense Address Activity Code (DODAAC) Unit, Sustainment, Commercial Sealift Solutions (CSS), Ocean Carrier Interface (OCI), Web Vessel Schedule (WVS), One-Time-Only (OTO), Automated Transportation Control Movement Document (ATCMD), Container Management Module (CMM), and the electronic Shipper System (eSS) Modules. These modules provide automated tools to: support carrier contract requirement definition, rate and service solicitations and evaluation; input vessel schedules; book unit and sustainment cargo; produce shipment documentation; provide cargo offering and status information; produce payment and billing documentation and cargo information; and provide in transit visibility (ITV) information, and manage container inventories in theatre.

Electronic Transportation Acquisition (ETA)

Contracting Agency: United States Transportation Command (USTRANSCOM)

NAICS Code (s): 541511

Procurement Type: Services

Description: Electronic Transportation Acquisition (ETA) - The Electronic Transportation Acquisition (ETA) system is the Military Surface Deployment and Distribution Command (SDDC) Single Sign-On (SSO) portal to the transportation community through the use of the Worldwide Web. ETA and the integrated systems are reachable through the Non-Classified Internet Protocol Router Network (NIPRNet) as well as through an alternative Internet path provided by Defense Information Systems Agency's (DISA) Demilitarized Zone (DMZ). ETA developers will manage and update several small applications such as the Redeployment Inbound Cargo, Ocean Carrier Performance Metrics, Carrier Appointment System (CAS), SDDC Container Inventory Spreadsheets, Sunny Point Calendar, Europe Workshop Briefings, Government Cargo Recovery Effort Program (GOCARE), and the SDDC Ports and Deploying Installations Books. All of the above components comprise ETA technical support. Hereafter the SDDC System Response Center (SRC), Defense Information System Agency (DISA) Demilitarized Zone (DMZ) support, Carrier Appointment System (CAS), Customer Satisfaction Survey (CSS), Redeployment Inbound Cargo, Ocean Carrier Performance Metrics, SDDC Container Inventory Spreadsheets, Sunny Point Calendar, Europe Workshop Briefings, GOCARE, SDDC Ports and Deploying Installations Books, and the ETA shall be referred to as ETA. The Contractor shall provide specialized systems engineering, technical services and support in developing and affecting policies, procedures, and associated documents needed to conduct the SDDC ETA program. This support will include maintenance and sustainment of new and existing infrastructure, preparation of memos, papers, presentations/briefings, and other correspondence, in addition to leading and/or participating in related ETA conferences and meetings.

DOD Approved Air Carrier: No

DOD VISA Participant: No

Projected Value Range: \$5,000,000 to \$25,000,000

Anticipated RFP Release Date: 4/1/2013

Single Mobility System (SMS)/Coalition Mobility System (CMS)

Contracting Agency: United States Transportation Command

NAICS Code (s): 541511

Procurement Type: Services

Description: Single Mobility System (SMS)/Coalition Mobility System (CMS) Recompete - SMS is the primary system used to view requirements, plan missions, and track execution. It provides the user with information from such systems as the Air Mobility Command (AMC) Global Decision Support System (GDSS) and Consolidated Air Mobility Planning System (CAMPS); the Air National Guard (ANG) Management Utility (ANGMU); the Global Transportation Network (GTN); the Joint Operations Planning and Execution System (JOPES). CMS provides for rapid coordination of coalition movement planning and execution by providing capability to observe data for aircraft, ship, road and rail movements (military and commercial) in support of coalition operations. TCAQ-D has a requirement to obtain non-personal services which will provide continuing system sustainment and operations support services in order to ensure continued mission critical SMS and CMS integrity and operational capability.

Business Support and Container Management (BSCM)

Contracting Agency: United States Transportation Command (USTRANSCOM)

NAICS Code (s): 541511

Procurement Type: Services

Description: The purpose of this acquisition is to sustain/enhance/provide systems/tools to support SDDC's Business Operations and Container Management mission execution. Current tools include:

- Pipeline Asset Tool – SDDC Business Support suite of modules / portals:

Surface ITV Module - Provides Break-bulk/Container ITV, booking/Vessel schedule information

Lift Onboard Portal - Supports LOB upload and timely/accurate ocean cargo manifesting and payments

Ocean Carrier Performance Portal - Used to measure Ocean Carrier compliance/performance

Delay Notification/Approval Portal - Enables shipment delay/staging request and approval process

Invoice Processing Portal - Used to validate container detention invoices

Customs Document Portal - Repository for customs documents filed by shippers

- Container Management Module (CMM) – Supports container management in Southwest Asia

- New task: Build user interface/capability to rapidly retrieve accurate and integrated container information

- Optional task: Army Container Asset Management System (ACAMS) – Supports management of Department of Defense owned containers (Maintenance, Inventory, Leasing, and ISO Registry)

ENTERPRISE ARCHITECTURE/ENTERPRISE ENGINEERING

Contracting Agency: United States Transportation Command (USTRANSCOM)

NAICS Code (s): 541519

Procurement Type: Services

Description: To achieve greater efficiencies and collaboration, the Government decided to combine the USTRANSCOM Enterprise Architecture (EA) (including data management and architecture tools), and enterprise engineering contracts with the equivalent AMC and SDDC contracts. The EA data currently resides in three independent repositories, managed by three independent tools. With this consolidated contract, the Government expects an integrated architecture tool suite.
