

DOD 4000.25-M Series. The DOD 4000.25-M series of manuals contains the procedures for inclusion of pRFID in MILSTRIP transactions, as well as procedures for using the XML reader registration, visibility and visibility response transactions. These are key to the business process implementation of pRFID.

To ensure currency, we have not posted these documents. Please find them on the Defense Logistics Management Standards Office (DLMSO) publishing site at http://www.dla.mil/j-6/dlms0/eLibrary/Manuals/dlms0_pubs.asp.
