DTEB DATA MAINTENANCE WORK REQUEST FORM

DATE SUBMITTED:

04/21/2011

DM NUMBER: 1011

USE THIS FORM TO REQUEST A NEW OR A CHANGE TO AN EXISTING DoD EDI CONVENTION OR ASC X12 STANDARD.

Complete all required actions. Numbered attachments may be used for continuation.

ITEM 1: SUBMITTER INFORMATION

If the submitter information below is incorrect contact:

Mr. David (Dave) Jimenez, USTC-ITS@ustranscom.mil, DSN 779-3056, Comm (618) 229-3056 to update.

ITEM 2: REFERENCES

Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.

Type

DoD EDI (C)onvention

TITLE:

DTEB 315.A.004010 STATUS DETAILS (OCEAN)

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change

Description:

EDI 315 v 4010 X12 values for Shipment Status Code (data element 157) allow for the following codes. We propose (1) add 4 of the X12 values to the B403 element at index 2-03 the DOD IC, and (2) to add a note to each of these values to provide a better description reference the use of these codes.

Existing code value "BD" - Recommitted Delivery Date

Use "BD" to denote "End of authorized shipment delay"

Existing code value "SD" - Shipment Delayed

Use "SD" to denote "Authorized shipment delay"

Existing code value "HG" - Held on Ground

Use "HG" to denote "Entry into U.S. Government-directed staging"

Existing code value "HR" - Hold Released

Use "HR" to denote "Release from U.S. Government-directed staging"

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The USC07 contract will require the ocean carriers to provide these new status codes for the actions as described above. Currently, the ocean carriers are using the "AV" status code for all delays when moving DOD cargo. This effort is to curb misuse of the AV code, and to better define delays within the movement. The plan is for the contract to be awarded by 1 Apr 2012.

ITEM 5: PRIORITY/REQUIRED DATE

Identify priority and required date of change.

PRIORITY: (R) - Routine

Required by date: 02/01/2012
