ITEM 2: REFERENCES

Identify either the DoD EDI convention or ASC X12 standard requiring change. If a new convention or standard is required, type "NEW" in place of the title.

Type

DoD EDI (C)onvention

TITLE:

DTEB 858.B.004010

TRANSPORTATION CONTROL AND MOVEMENT  
DOCUMENT (TCMD) VERSION 2

ITEM 3: PROPOSED WORK

Identify the action required (add, change, delete) and describe the specific work requested to the convention of standard. For convention work, identify section, page number, affected item, and any other information that clarifies the request. For standard work, identify segment, segment position, segment attribute, data element, data element attribute, and any other information that clarifies the request. Acronyms/abbreviations must be spelled out. New codes must include an expanded code definition.

ACTION: Change

Description:

Change the government use definitions of code values 'VS' and 'IA' at indices 6-02, 7-02, 12-02, 13-02, 17-02, and 19-02 to read:

IA - Use 'IA' to denote AerialPortCode.

VS - Use 'VS' to denote WaterPortCode.

Additionally, change the DoD implementation names of the following data elements:

R401: Event Qualifier (Indices: 6-01, 7-01, 12-01, 13-01, 17-01, and 19-01)

R402: Mode Qualifier (Indices: 6-02, 7-02, 12-02, 13-02, 17-02, and 19-02)

R403: Location Code (Indices: 6-03, 7-03, 12-03, 13-03, 17-03, and 19-03)

ITEM 4: REASON FOR CHANGE (business case)

Explain why you need the proposed change. Provide a complete scenario that tells what the business function, operation, or problem is that will be satisfied by a change to the convention. Technical assessment requires enough information to be able to propose an alternate solution, if necessary. Be specific. Use additional paper if necessary.

The codes 'IA' and 'VS' in R402 should be used to communicate only mode (Air or Water), not event (which is communicated in the R401 at each index). Currently the Identifier Qualifier Codes have dual definitions with each either referring to loading or discharge (a POD or POE) depending on the index. Modifying the definitions eliminates ambiguity

Modification of the element names provides clarity of use.

ITEM 5: PRIORITY/REQUIRED DATE

Identify priority and required date of change.

PRIORITY: (R) - Routine

Required by date: 10/28/2011

Administration change only. No DTEB vote required for approval.

No vote required.

Approve as NVR. Recommend that we establish the procedure of implementing approved NVR DMs by incorporating them in all active versions of the appropriate IC, but not initiating a new version just for the NVR change(s). Please be sure an announcement goes out to the community.
