Single Container Management System

- **AAA Audit, JIWG & DSG direction**
- **TRANSCOM approval and funding for FY13**
- **Continue to improve data sharing between ACAMS & IBS-CMM**
- **Refine requirements in support of long-term DoD needs:**
 - Leverage ACBAT (JIPMS) requirements previously identified
 - New requirements addressing system capability gaps
 - New requirements addressing container management-related gaps in DTS
 - Tiger Team from Services, COCOMs, TRANSCOM, SDDC, other interested representation to hone program requirements

Single CM Capability Timeline – FY13 Funding

Single Container Management System

Single, intuitive user interface for joint, global application across DoD

Joint Container Management Training

- WG established for rewrite of Army Transportation Management Coordinator(88N) & the Transportation Management Coordinator, Advanced Leader Course (ALC)
- Established Air Force CM training team for SWA
- Conducted CM Train the Trainer training for Marine personnel located @ Camp Lejeune
- Created CM training Smart Phone APP
- Joint training with Army CM trainers
- Create Joint CM training on Blackboard Lifelong Learning Center
- Future Joint Logistics Course Inclusion/Implementation
