USTRANSCOM has a well-established Military Equal Opportunity Program that calls for the fair and equal treatment of all USTRANSCOM employees and is addressed in USTRANSCOM Instruction 36-11, *Military Equal Opportunity Program*.

USTRANSCOM's equal opportunity policy is to promote an environment free from personal, social, or institutional barriers that prevent Service members from rising to the highest level of responsibility possible. The Military Equal Opportunity Staff Officer serves as equal opportunity advisor to military personnel and coordinates command climate surveys and Equal Opportunity Training as requested.
