

U.S. GOVERNMENT NON-DEPARTMENT OF DEFENSE (NON-DOD) AIRLIFT RATES FOR THE TRANSPORTATION WORKING CAPITAL FUND (TWCF)

PASSENGER AND CARGO CHANNEL RATES

EFFECTIVE: 01 Oct 12 through 30 Sep 13

The Non-DOD U.S. Government rate applies to other Federal Agencies (e.g., Government Agencies, Department of State, Federal Bureau of Investigation, Drug Enforcement, Homeland Security and Non-Appropriated Fund Instrumentalities). Questions regarding which rate applies can be directed to HQ USTRANSCOM J8-AB at Commercial (618)229-5098 or DSN 779-5098.

1. Instructions for use of U.S. Government Non-DOD Channel Rate Tables:

a. To obtain cargo rates, consult the attached zone-to-zone table (ATCH 1: Other Non-DOD Channel Cargo Tariffs). If unsure of a country's cargo zone, reference the attached cargo zone list and map (ATCH 2: Cargo Zone List and Map). For example, a cargo shipment from Charleston AFB to Haiti would be charged the zone 1 to 3 tariff. The dollar/lb rates for a shipment from zone 1 to 3 are \$6.502 (0-439 lbs shipment), \$6.249 (440-1099 lbs), \$6.002 (1100-2199 lbs), \$5.746 (2200-3599 lbs), and \$5.536 (3600+ lbs).

b. To obtain passenger rates, consult the attached alphabetized listing of stations with their respective tariffs (ATCH 3: Other Non-DOD Channel Passenger Tariffs). The rates table reflects the tariff for one direction, but the outbound and inbound rates are identical.

c. Reference DOD 4500.9-R and DOD 4515.13-R, C1.4.2.2. Excess baggage charges will be assessed on a per piece basis, based on the passenger fare. Each passenger is authorized two pieces of baggage not to exceed 70 pounds each or 62 linear inches. The sum of linear measurements (length/height/width) must not exceed 62 inches. Bags larger than 62 inches and/or heavier than 70 pounds will be counted as two pieces and checked baggage exceeding the free weight criteria will be counted as an extra piece for each increment of 70 pounds. Items exceeding 100 pounds and/or 80 linear inches will not be accepted, and must be moved as freight. Piece rate charges listed below are based on ranges of passenger fares. Authorization for excess baggage must be included on travel orders to properly charge the unit. Otherwise, the charge for excess baggage is the responsibility of the traveler. However, in accordance with AMCI 24-101, Volume 14, paragraph 68.1, and DOD 4515.13-R, C1.4.2.2, space available passengers are not authorized excess baggage. Disposition of unauthorized excess baggage is the responsibility of the passenger.

Excess Baggage Piece Rates*/Pet Rates*

Pax Fares**	Rate Per Piece/Pet Rate
\$43-\$60	\$14 minimum
61-115	26
116-170	42
171-230	54
231-285	68
286-340	80
341-400	88
401-455	95
456-510	102
511-570	109
571-and above	116 maximum

* Minimum charge is \$14; maximum charge per piece is \$116.

** Passenger fare is basis for charge. See Para 1.h. for more information on pets and excess baggage tariffs.

d. When segmentized air movement designators (AMD) are issued to permit an authorized delay at an intermediate AMC channel transit point, charges will be based on the channel segment rates. Notional example:

When a TDY passenger is traveling from Point A to Point C and the passenger's orders require a Point B stopover, the AMDs would be issued from Point A to Point B and Point B to Point C. A notional example is computed as follows:

Point A – B	\$500
Point B - C	\$1,000
Total	\$1,500

The notional rate for Point A to Point C is \$900 and would be the applicable rate when the passenger's orders do not require a stopover or if a stopover at Point B is made for AMC convenience or passenger safety.

e. Excess Charges for Overweight Passengers - Upon request and advance arrangement of the exclusive use of two seats by a passenger, payment will be made for two full adult fares applicable between the points which the seats are used. Also, the free baggage allowance for such passengers will be the normal allowance for two seats.

f. Charges for carrying cargo are assessed by pound or cube. The rate per pound is dependent on the size of shipment. The rate reflects the five weight breaks, i.e., shipments weighing 1-439 pounds, 440-1099 pounds, 1100-2199 pounds, 2200-3599 pounds, and shipments weighing 3600 pounds or more. The cubic foot measurement indicated on each shipping requisition is multiplied by the cube density minimum of 10 pounds per cubic foot and compared to the weight. To compute the cube density (dimensional weight): Apply 10 lbs per one cubic foot ($1\text{ft}^3 = 12\text{ in} \times 12\text{ in} \times 12\text{ in} = 1728\text{in}^3$, which equals $172.8\text{ in}^3/\text{lb}$); this divisor 172.8 is applied to the L x W x H calculations. The chargeable weight is the actual net weight or cubic weight equivalent; whichever is greater as indicated on the transportation control movement document (TCMD). The chargeable amount will depend on the actual weight break of the shipment even though the cube weight may put the shipment in a higher or less expensive weight break. For example: 2600 lb package has a cube density of 4500 (cube density equals cubic feet x 10 lbs)—since the cube density is greater, multiply cube density by the weight break rate applicable to actual weight of 2600 lbs (4th weight break cost per pound) to get total customer cost.

g. All Non-DOD cargo shipments will have a minimum line item charge of \$25.00. All charges will be rounded to the nearest whole dollar. Rounding to the nearest whole dollar doesn't apply to split shipments.

h. Reference DOD 4515.13-R, Chapters one and eight. Movement of pets (cats and dogs) within authorized areas on AMC military or Patriot Express flights are reimbursed by determining the Non-US Government passenger tariff located in the tariff section or Para 4.a. After determining this tariff, use the Excess Baggage/Pet Rate Table in Para 1.c. for pet rate. Pets and their containers with a combined weight up to 70 lbs will be charged as one piece; 71 lbs - 140 lbs will be charged as two pieces and 141-150 lbs will be charged as three pieces. These rates will apply regardless of the number of pets in the container. Pets and their containers with a combined weight in excess of 150 lbs will not be accepted for shipment. POC for pet movement information is TACC/XOGC, DSN 779-7862.

i. Non DOD customers are not eligible to ship cargo TP-4.

2. Aeromedical Evacuation. Aeromedical evacuation furnished Non-DOD/Other U.S. Government Agencies patients (if otherwise authorized) within the CONUS and overseas areas and between overseas and the CONUS will be charged as follows:

a. For a litter patient with no attendant, the overseas/international charge will be three seats at the Non-DOD/Other U.S. Government Rate Tariffs published herein. The stateside charge will be three first-class commercial airline fares as shown in the current Official Airline Guide, plus \$1 each fare and applicable transportation tax, current at time of travel. Facility charges (hospital/inflight) current at time of travel will be assessed for each day (or fraction thereof) the patient is in the aeromedical system. For each attendant, an extra seat will be charged with appropriate Tariff Rate.

b. For an ambulatory patient, the overseas/international charge will be one seat at the Non-DOD/Other U.S. Government Rate Tariffs published herein. The stateside charge will be one first-class commercial airline fare as shown in the current Official Airline Guide, plus \$1 and applicable tax. Facility charges (hospital in-flight) current at time of travel will be assessed for each day (or fraction thereof) the patient is in the aeromedical system. Each attendant accompanying an ambulatory patient will be charged at the appropriate tariff.

c. Urgent or Priority Transportation. If aeromedical transportation is required on a special assignment mission (that is, urgent or priority), the tariffs prescribed for Special Assignment Airlift Missions hourly tariff rates will apply.

3. United States Government Transportation Tax--Passenger and Cargo. For the purpose of application of this tax, the term "United States" will mean any of the fifty states.

Passenger. Transportation tax current at time of travel will be applied for the travel of passengers and patients between points within Alaska and Hawaii, and between CONUS and the Canadian and Mexican buffer zones (that portion of Canada and Mexico which is not more than 225 miles from the nearest point in the Continental (excluding Alaska and Hawaii) United States).

4. Computation of Charges of U.S. Government Non-DOD Passenger and Cargo offered but not included in rate tables attached:

a. For service not shown:

(1) For passenger, obtain the nautical mileage between points where transportation is to be furnished and multiply the mileage by \$0.551837; however the minimum charge is \$50. Round passenger fare to the next whole dollar.

(2) To compute cargo estimates, see ATCH 4: Average Channel Cargo Zone Rates.

5. Rates may be obtained by request to HQ USTRANSCOM/J8-BT at DSN 779-5074 or 779-5060 or e-mail to USTC-RATES@ustranscom.mil.
