

DRAFT

TRAC²ES Minimum/Recommended Operating Requirements

<i>Client Side Hardware, Software, and Other</i>	<i>Recommended¹ TRAC²ES-WEB (Performance requirements guaranteed)</i>	<i>Minimum TRAC²ES-WEB² (System operates, but performance may be degraded)</i>	<i>Recommended³ (Minimum) TRAC²ES-MOBILE</i>
Processor Speed	P 4/1.3 GHz compatible	486/66-MHz processor or higher (Pentium processor recommended)	P III/1.0 GHz compatible
Memory (RAM)	256 MB RDRAM	32 MB	256 MB SDRAM (96 MB minimum)
Video Controller: Type VRAM Resolution (Pixels)	SVGA 16 MB 800x600 or higher	SVGA 1 MB 800x600	SVGA 8 MB 800x600 or higher
Hard Disk Drive	32 MB of free space (For browser application)	32 MB of free space (For browser application)	250 MB of free space (For browser application and TRAC ² ES-Mobile)
CD-ROM Drive ⁴	Not Required	Not Required	24x
Modem	Not Required	Not Required	56K V.90
Network Interface Card	10/100 Mb/s	10 Mb/s	10/100 Mb/s
NIPRNET/SIPRNET Dial Up Account	Not Required	Not Required	Dial in account over DSN lines to NIPRNET and SIPRNET ⁵
E-mail account ⁶	Standard E-mail account	Standard E-mail account	Standard E-mail account
Local Area Network Connection to NIPRNET/SIPRNET	Required	Required	Required
Operating System Software	Windows 95, 98, or NT 4.0	Windows 3.1	Windows NT 4.0 Service Pack 5
Web Browser ⁷	Netscape 4.78 Internet Explorer 6.0 128-bit encryption capable	Netscape 4.78 Internet Explorer 6.0 128-bit encryption capable	Netscape 4.78 Internet Explorer 6.0 128-bit encryption capable
TRAC ² ES Software	None Required	None Required	TRAC ² ES-Mobile Software ⁸

Notes:

1. TRAC²ES performance requirements are guaranteed when the "recommended" configuration based on the Military Health System (MHS) standard of 25 January 2002 is used.
2. TRAC²ES-Web is the standard TRAC²ES interface. TRAC²ES cannot ensure that the performance provided by the minimum configuration will meet the Key Performance Parameters found in the Operational Requirements Document.
3. Configuration based on MHS standard of 22 July 2002.
4. 24x CD-ROM drive and Sound Blaster compatible sound card with speaker(s) are required to run the CBT.
5. Required only for users who must access the SECRET side of TRAC²ES over the SIPRNET and do not have a direct connection. In addition, an encryption device (e.g., STU III, FORTEZZA, etc.) approved by the local security authority is required for transmission over DSN lines to the SIPRNET point of entry. The dial up connection option currently is not available.
6. "Standard" account is the user's normal Government e-mail account
7. Use of other Web browsers may result in some TRAC²ES screens not performing as expected or appearing as intended.
8. Booz Allen distributes TRAC²ES-Mobile, at PMO direction, on CD-ROM and end users install it. TRAC²ES-Mobile is an optional alternative interface to TRAC²ES-Web.

As of 14 April 2003
Revision 14
